## **Chronic Kidney Disease in the United States, 2019**

In some cases of acute  
kidney failure, dialysis  
may only be needed  
for a short time until  
the kidneys get better.  
In chronic or end stage  
kidney failure, your  
kidneys do not get  
better and you will  
need dialysis for the  
rest of your life. If your

make these

substances. People  
with healthy kidneys  
who eat a variety of  
foods from all the food  
groups (meats, grains,  
fruits, vegetables and  
dairy products) can get  
enough vitamins and  
minerals. But if you  
have chronic kidney  
disease or are on  
dialysis, your diet may  
limit some food groups.
