The role of culture in influencing international business

management practices and approaches is an undisputed fact [1, 2]. Studies have shown repeatedly that national cultural systems as well as individual cultures greatly affect the corporate cultural system [3, 4] in many ways. For example, national culture influences managerial decision-making, leadership styles, and human resource ...

History. Learn more about the subject of history, which is broadly defined as the study of past events. Due to the broad nature of the concept, most

historians narrow their scope by focusing on a particular time period, a particular country or region, a particular person, group, or individual person, a particular theme, or any combination of those categories.

.
