Trends like these help perpetuate a continual cycle of not having enough nursing graduates to take on nurse educator roles in schools of nursing. Another issue facing nurse educators is that the current nurse educator population is aging, and therefore, not enough newer educators are able to fill the gap.

**Nurse Educators and Where the Future Lies for Nursing ...**

Earlier reports showed the co-occurrence of a motivation deficit in children with ADHD. The purpose of this study was to assess the impact of extrinsic motivation on selected aspects of attention in children with ADHD, as well as to measure cortical activity and dimensions of motivation as per the self-determination theory. The study included 30 children with ADHD and 30 typically developing ...
